> LYNNVILLE (TENN.,) (AS SEEN FROM BLUE DRASS HILL.) No sign of one I yet have chanced to se

bright; Upon the grass my unshet gun I lay, And look around and Lynnville greets m eight; 'Tis worth my climb to view it from this

It seems a toy village set at will
Upon a carpet varied in its hue;
For here and there a gently sloping hill
With fields of green and brown which
brought to view,
Seem quilt-work such as girls are wont

Encompassed well by hills of richest green
I love to gaze, oh! village dear, on thee
A lovelier landscape I have never seen,
Nor can I ever wish to see
A vale more bleat with pleasant scenery

Oh! would I had the artist's eye to paint Thee as I see thee from this verdant rise Twould cheer my heart whene'er it should grow faint, 'Twouldbe's feast to care-worn, hungry eyes, 'Twould foe a picture men would greatly

The distant hills, well-crowned with stately That bind the circling horizon so blue, Are wrapped in mist, which seems with ev'ry To shift about just as the breezes do, And very nearly hids those hills from view

The arching sky has here and there a clou Sailing like some swan o'er waters clear; While through the leaves the spring wind whistles loud, And stirs the tops that trees are proud to Or sighs in tone so low, I love to hear.

A richer verdure to each grassy chore, Lined by trees and fields of wheat or corn; Reflecting clouds that float so gently o'er; And fading blossoms by the breezes tomb Are soon away upon its bosom borne.

The rugged cliffs above o'erlook this tide
That lowly murmurs at their story feet
In mossy plots the dandelions hide.
In crevices the feath'ry fern leaves med
Around the bed of velvet violets sweet Oh Robertson, thy waters may not be

And Lynnville lying on thy verdant shore Seems but a picture of some far off land Where tropic suns shine always gently o'er.— Italia's sky so purifying and So spotless, seems above thee to expand.

May, 1879.

What is now wanted is a movement up to the declaration that Tennes see is willing, as it is able, to pay every dollar it owes.

Hezekiah Bedott. BY F. M. WHITCHER.

He was a wonderful hand to moralize, husband was, specially after he begun to enjoy poor heaith. He made an observation once, when he was in one of his poor turns, that I partment, there is known to be shall never forget the longest day I used, of foreign and domestic lilive. He says to me, one winter quors, something over \$600,000,000 evening, as we was a-settin' by the worth! This is an enormous sum fire; I was a knittin', (I was always a wonderful great knitter,) and he plain of being hard run. But this was a-smokin', (he was a master is not all. The same amount, or hand to smoke, though the doctor very near, is spent for tobacco. used to tell him he'd be better off The tobacco crop is enormous every lows: to let tobacker alone; when he was year, and yet it is all consumed. well he used to take his pipe and There are very many men who use smoke a spell after he'd got the chores done up, and when he wa'nt all, and besides there are very many ment, as well as those of the differchores done up, and when he wa'nt well, used to smoke the biggest part o' the time.) Well, he took his pine out o' his mouth and turned The population of the United States carcely excelled in richness by the sugar crop is the least exhaustive pipe out o' his mouth and turned toward me, and I knowed some. Taking the toward me, and I knowed some. Taking the sugar cane of Louisiana. The of all that can be grown, and imthing was comin, for he had a per-tikkerler way o' lookin' round when are 10,000,000 voters. Taking the sugar produced by this process is tikkerler way o' lookin' round when are sugar who use snuff, true crystallized cane sugar. Maize he was gwine to say anything on- and the boys under age who use to- sugar, it need hardly be said, is not ommon. Well, he says to me, says he, "Silly," (my name was Prissilly can safely say that ten millions of the citizens use it. To those who made from the starch of ripened ways called me Silly, 'cause 'twas keep an account of their expenses it grain by a well known chemical these plants in the United States handier, you know.) Well, he says will be no surprise to say that the transformation, but it is a natural will be found to be greatly augto me, says he, "Silly," and he looked pretty solemn. I tell you, he less than \$50 each. We know had a solemn countenance naterally many, very many, whose cigar actually many, very many, whose cigar actually these plants at the proper period ceases of manufacture now necessary -and after he got to be deacon 'twas more so, but since he'd lost his health, he looked solemner than his health, he looked solemner than a very moderate estimate. Here The little brook that reshes down the slope And gurgles on in bels of weeds to hid, And there with dams of matted grass to cope, Then break them through and cradle on its tide to be deacon count rank up to \$500 per animal, of their growth (when the grain is up to \$500 per animal, of their growth (when the grain is up to \$500 per animal, of their growth (when the grain is in the milk in the case of corn and shortly after the flowing period to be deacon than and we have heard of others who in the milk in the case of corn and shortly after the flowing period to shortly after the flowing period to spend \$5 per day. So the above is shortly after the flowing period to perfect ripeness in the case of corn and shortly after the flowing period to perfect ripeness in the case of corn and shortly after the flowing period to accomplishing the result—the return that a very moderate estimate. Here, perfect ripeness in the case of corn and shortly after the flowing period to accomplishing the result—the return the shortly after the flowing period to accomplishing the result—the return that a very moderate estimate. Here, perfect ripeness in the case of corn and shortly after the flowing period to accomplishing the result—the return that a very moderate estimate. Here, perfect ripeness in the case of corn and shortly after the flowing period to accomplishing the result—the return the period to accomplishing the result—the return the period to accomplishing the result—the return the period to accomplishing the result and the period to accomplishing the result. Flows smoothly on and mingles its bright flood With that of Robertson, that slowly wends lts way through thickets dense, or bits of one of this back, besides the pleuron of the quiet village. There it bands to waste as this?

Wonder at it if you knowed how much he underwent. He was \$1,100,000,000 for liquors and to bacco. This is a fearful sum to be wasted every year. Can we complex nature of these juices would seem to indicate. It will be found, for example that the cost of the manufacture of the plain of hard times with such won tries of the plain of hard times with such won the quiet village. There it bands to be a sugar, nearly all of which can be a sugar. On to the quiet village. There it bends rissy in the side, and having And binds the Souther side of it and lends ager a considerable part of the ti ager a considerable part of the time and bein' broke of his rest o

nights, 'cause he was so put to for breath when he laid down. Why, it's an onaccountable fact he was making a target. that when that man died he hadn't seen a well day in fiftten year, tho' when we was married, and for five licking the or six year after, I shouldn't desire the letter. to see a ruggeder man than he was. But the time I'm speaking of he'd now," said Spilkins, and have quit As copious as others, but thou art

When may two persons be said to be half-witted when they have an understively, is needed to prevent intermixture of varieties, although by careful selection, richer varieties, be then that I should ever marry him, I should a said—but, lawiul sakes!

I most forgot, I was gwine to tell you what he said that evenin', and when she married a tramp.

When may two persons be said to be half-witted when they have an understively, is needed to prevent intermixture of varieties, although by careful selection, richer varieties, between them.

The woman who said she would not marry the best man living kept her word when she married a tramp.

When may two persons be said to be half-witted when they have an understively, is needed to prevent intermixture of varieties, although by careful selection, richer varieties, although the made to of the process Itself for the process I said of a sudding she apparent of Moses was a very meek man, but only being used for this purpose. slow.

So rest thee now, O quiet, happy town,
May Heaven's choicest blessings fall on thee;
Kissed by its dews that float so gently down
So may'st thou flourish like the great eak
tree.

Moses was a very meek man, but he never hit his pet corn with a croquet mallet.
